FEDERAL PERSONNEL IN EXECUTIVE BRANCH, SEPTEMBER 1959 AND AUGUST 1959, AND PAY, AUGUST 1959 AND JULY 1959

NOTE WITH REFERENCE TO PERSONAL SERVICE EXPENDITURE FIGURES

It should be noted that the latest expenditure figures for personal service shown in table I of this report are for the month of August 1959 and that they are compared with personal service expenditure figures for the month of July 1959, whereas the latest employment figures covered in this report are for the month of September 1959 and are compared with the month of August 1959. This lag in personal service expenditure figures is necessary in order that actual expenditures may be reported.

(Figures in the following report are compiled from signed official personnel reports by the various agencies and departments of the Federal Government. Table I shows total personnel employed inside and outside the United States, and pay, by agency. Table II shows personnel employed inside the United States. Table III shows personnel employed outside the United States. Table IV gives by agency the industrial workers employed by the Federal Government. For purposes of comparison, figures for the previous month are shown in adjoining columns. Table V is a separate report on foreign nationals who are not counted in tables, I, II, III, and IV.)

STATEMENT BY SENATOR HARRY F. BYRD (D. Va.) CHAIRMAN OF THE JOINT COMMITTEE ON REDUCTION OF NONESSENTIAL FEDERAL EXPENDITURES, in connection with the monthly report on federal personnel and pay for September 1959. For release in afternoon papers, Friday, October 30, 1959.

Executive agencies of the Federal Government reported civilian employment in the month of September totaling 2,345,358. This was a net decrease of 18,962 as compared with employment reported in the preceding month of August.

Civilian employment reported by the executive agencies of the Federal Government, by month in fiscal year 1960, which began July 1, 1959, follows:

Month	Employment	Increase	Decrease
July	2,370,694	3,703	--
August	2,364,320	--	6,374
September	2,345,358	--	18,962

Total federal employment in CIVILIAN AGENCIES for the month of September was 1,281,605, a decrease of 12,198 as compared with the August total of 1,293,803. Total civilian employment in the MILITARY AGENCIES in September was 1,063,753, a decrease of 6,764 as compared with 1,070,517 in August.

Civilian agencies reporting the larger decreases were Agriculture Department with 6,349, Interior Department with 2,886, Post Office Department with 734, and Treasury Department with 481. The decreases in the Departments of Agriculture and Interior were largely seasonal.

In the Department of Defense, decreases in civilian employment were reported by the Department of the Army with 4,208 and the Department of the Navy with 2,620.

Inside the United States civilian employment decreased 19,588, and outside the United States civilian employment increased 626. Addition of the Tennessee Valley Authority increases the number of federal agencies employing civilian personnel overseas to 33. TVA reported it employed two persons in Europe during

the United States civilian employment increased 626. Addition of the Tennessee Valley Authority increases the number of federal agencies employing civilian personnel overseas to 33. TVA reported it employed two persons in Europe during September to inspect work on generators being constructed for the agency in England and Switzerland. TVA revised its August report to show one of these inspectors was overseas in August.

Industrial employment by federal agencies in September totaled 565,724, a decrease of 4,262.

These figures are from reports certified by the agencies as compiled by the Joint Committee on Reduction of Nonessential Federal Expenditures.

FOREIGN NATIONALS

The total of 2,345,358 civilian employees certified to the Committee by federal agencies in their regular monthly personnel reports includes some foreign nationals employed in U. S. Government activities abroad, but in addition to these there were 183,074 foreign nationals working for U. S. military agencies during September who were not counted in the usual personnel reports. The number in August was 184,380. A breakdown of this employment for September follows:

COUNTRY	TOTAL	ARMY	NAVY	AIR FORCE
Belgium	12	--	--	12
England	3,544	--	--	3,544

FOREIGN NATIONALS

Table 5 segregates and accounts for certain categories of personal services rendered to the U.S. Government overseas, which cannot be regarded as ordinary direct employment.

Generally, this personal service is rendered military agencies overseas under agreements with the foreign governments. In most cases the employment is indirect. The foreign governments hire the employees. The U.S. military agencies in most cases administer or direct the activity.

Personnel hired and used under such circumstances cannot be properly considered in the same category as regular employment, but they are used and should be counted for what they are.

The Joint Committee on Reduction of Nonessential Federal Expenditures is endeavoring to identify these groups of employees and to count them along with, but separate from, the regularly reported U.S. employment overseas.

FEDERAL PERSONNEL IN EXECUTIVE BRANCH, OCTOBER 1959 AND SEPTEMBER 1959, AND PAY, SEPTEMBER 1959 AND AUGUST 1959

NOTE WITH REFERENCE TO PERSONAL SERVICE EXPENDITURE FIGURES

It should be noted that the latest expenditure figures for personal service shown in table I of this report are for the month of September 1959 and that they are compared with personal service expenditure figures for the month of August 1959, whereas the latest employment figures covered in this report are for the month of October 1959 and are compared with the month of September 1959. This lag in personal service expenditure figures is necessary in order that actual expenditures may be reported.

(Figures in the following report are compiled from signed official personnel reports by the various agencies and departments of the Federal Government. Table I shows total personnel employed inside and outside the United States, and pay, by agency. Table II shows personnel employed inside the United States. Table III shows personnel employed outside the United States. Table IV gives by agency the industrial workers employed by the Federal Government. For purposes of comparison, figures for the previous month are shown in adjoining columns. Table V is a separate report on foreign nationals who are not counted in tables I, II, III, and IV.)

STATEMENT BY SENATOR HARRY F. BYRD (D. Va.) CHAIRMAN OF THE JOINT COMMITTEE ON REDUCTION OF NONESSENTIAL FEDERAL EXPENDITURES, in connection with the monthly report on federal personnel and pay for October 1959. For release in afternoon papers, Friday, November 27, 1959.

Executive agencies of the Federal Government reported civilian employment in the month of October totaling 2,348,807. This was a net increase of 3,448 as compared with employment reported in the preceding month of September.

Civilian employment reported by the executive agencies of the Federal Government, by months in fiscal year 1960, which began July 1, 1959, follows:

Month	Employment	Increase	Decrease
July	2,370,694	3,703	--
August	2,364,320	--	6,374
September	2,345,359	--	18,961
October	2,348,807	3,448	---

Total federal employment in CIVILIAN AGENCIES for the month of October was 1,289,090, an increase of 7,484 as compared with the September total of 1,281,606. Total civilian employment in the MILITARY AGENCIES in October was 1,059,717, a decrease of 4,036 as compared with 1,063,753 in September.

Civilian agencies reporting the larger increases were Commerce Department with 8,486, Post Office Department with 653, Veterans Administration with 447 and Department of Health, Education and Welfare with 407. The larger decreases were reported by Agriculture Department with 1,462, Interior Department with 698 and Treasury Department with 452. The increase reported by Commerce Department was due largely to special census activities, and the decreases in Agriculture and Interior Departments were largely seasonal.

In the Department of Defense, decreases in civilian employment were reported by the Department of the Army with 2,722 and the Department of the Navy with 1,703. The Department of the Air Force reported an increase of 350.

Inside the United States civilian employment increased 4,239, and outside the United States civilian employment decreased 791. Industrial employment

Inside the United States civilian employment increased 4,239, and outside the United States civilian employment decreased 791. Industrial employment by federal agencies in October totaled 565,569, a decrease of 1,033.

These figures are from reports certified by the agencies as compiled by the Joint Committee on Reduction of Nonessential Federal Expenditures.

FOREIGN NATIONALS

The total of 2,348,807 civilian employees certified to the Committee by federal agencies in their regular monthly personnel reports includes some foreign nationals employed in U. S. Government activities abroad, but in addition to these there were 182,765 foreign nationals working for U. S. military agencies during October who were not counted in the usual personnel reports. The number in September was 183,074. A breakdown of this employment for October follows:

FOREIGN NATIONALS

Table 5 segregates and accounts for certain categories of personal services rendered to the U.S. Government overseas, which cannot be regarded as ordinary direct employment.

Generally, this personal service is rendered military agencies overseas under agreements with the foreign governments. In most cases the employment is indirect. The foreign governments hire the employees. The U.S. military agencies in most cases administer or direct the activity.

Personnel hired and used under such circumstances cannot be properly considered in the same category as regular employment, but they are used and should be counted for what they are.

The Joint Committee on Reduction of Nonessential Federal Expenditures is endeavoring to identify these groups of employees and to count them along with, but separate from, the regularly reported U.S. employment overseas.
